Re: Glenbard Wastewater Authority

To: Matt Streicher

Dear Matt,

Thank you for applying to the Utility of the Future Today (UotFT) Recognition Program for 2023. On behalf of the partners of the UotFT Program, we are very pleased to inform you that your utility has been selected to receive recognition as a UotFT for 2023!

Fifty applications were received in the 2023 application cycle and forty- seven utilities are being honored with your organization among them. All applications were reviewed by two members of a selection committee consisting of peer utility general managers and executives. Your application met the criteria for a UotFT, and we hope you will share this accomplishment with your utility leaders, employees, and governing body.

This year we will honor our recognized utilities at a ceremony at WEFTEC 2023 in Chicago on Tuesday, October 3 from 1:00 to 3:15 PM CT. While attendance at the ceremony is not required, we hope you will be able to join us there. More detailed information regarding the ceremony will be forthcoming.

In recognition of this accomplishment, you will receive a UotFT banner and/or a 2023 flag to attach to an existing UotFT banner. In addition, you will also receive a certificate of recognition and the partner organizations will issue press releases regarding the honorees.

If you haven't already done so, please provide a photo of your utility to Trudi Bick ([tbick@wef.org](mailto:tbick@wef.org)) no later than **Friday, September 1** so that it can be included in the recognition ceremony presentation.

Thank you and congratulations on this achievement!
